HERUS+ ADDED TO OUR FAMILY OF AWARD WINNING AUDIO DACS

Resonance Labs are proud to announce the addition of HERUS+ to our growing list of award winning Audio DAC's. HERUS+ will add the following features to the HERUS unit:

- Redesigned PCB.
- The ability to select between two digital filters to optimize the listening experience.
- Low Power mode for iPhone and Android cell phone users.
- Improved Volume Control Sensitivity levels
(this feature will shortly be made available for existing HERUS owners.)
- Improved ESD tolerance.
- Increased on-board Memory.

These enhancements demonstrate our continued commitment to produce world class Audio products at affordable prices.

Priced at \$425 USD HERUS+ will start shipping in mid November. Pre-orders are now being taken. Free shipping in North America on all orders received prior to 21st November 2014.

Mark Mallinson,

President, Resonance Labs
